

## RETRACTION

# Retraction: A Project-Based Case Study of Data Science Education

Daniel Turek, Anthony Suen and Dav Clark

Berkeley Institute for Data Science, University of California, Berkeley, CA 94720, USA

Corresponding author: Daniel Turek ([dturek@berkeley.edu](mailto:dturek@berkeley.edu))

This retraction notice relates to the following article: Turek, D, Suen, A and Clark, D 2016 A Project-Based Case Study of Data Science Education. *Data Science Journal*, 15: 5. DOI: <http://doi.org/10.5334/dsj-2016-005>

It has come to the attention of the *Data Science Journal* Editors that the authors of the paper “A Project-Based Case Study of Data Science Education” (Turek, Suen and Clark, 2016) did not seek the necessary approval for research involving human subjects prior to conducting their study. In addition, they failed to obtain consent from research participants before publication. The article has therefore been retracted. In the interests of protecting the identity of the research participants, we have also withdrawn the contents of the article from the published record.

*Data Science Journal* requires that all research involving human subjects is conducted in accordance with the Declaration of Helsinki (or equivalent framework) and, if appropriate, has been approved by the local institutional research ethics committee.
